PROGRESS & ACCOMPLISHMENTS

CAMPAIGN METRICS: May 1st, 2026

CRITERIA	PREVIOUS 7 DAYS	LAST 7 DAYS (May 1st , 2026)	% CHANGE
AD SPEND	143.99	141.52	↓ 1.4%
CLICKTHROUGH RATE	%0.98	%1.03	↑ 5.1%
COST PER CLICK	$7.98	$7.16	↓ 10.3%
COST PER MILLE	$78.22	$73.37	↓ 6.2%
YOUR FORM FILLS	#1-2	#0-1	
COST PER FORM FILL	$72.00	$72.41	↑ 0.6%
SALES	0	0	↓
COST PER SALE	$0	$0	% INC | DEC
REVENUE	$ INSERT	$ INSERT	% INC | DEC
ROAS	#	#	% INC | DEC

OBSTACLES

These are obstacles that we are currently facing in achieving our goals.

Problems :

- Ad spend decreased week-over-week, slightly limiting overall reach and data volume.
- CPC and CPM increased significantly, indicating higher auction costs and reduced cost efficiency.
- Cost per form fill rose, showing reduced efficiency in converting traffic into leads.
- CTR improved slightly, but not enough to offset rising traffic costs.
- Lead volume remained flat, suggesting current spend level isn't scaling output.

OPPORTUNITIES

These are a list of actions we can take to enhance performance next week

Solution :

- Stabilize and gradually increase ad spend to regain volume and improve data for optimization.
- Refresh and test new creatives to further improve CTR and reduce cost pressure.
- Optimize targeting and placements to bring CPC and CPM back down.
- Improve conversion flow (landing page/form) to lower cost per form fill.
- Continue monitoring performance closely and adjust based on cost-efficiency trends while maintaining lead quality.
